Score - **79.9%** (upto 7th semester)

SKILLS

C++, ALGORITHMS, DATA STRUCTURE, HTML, CSS , JAVASCRIPT

PROJECT

→Food Delivery Website — April 2023

As a front-end developer, I designed and implemented a food delivery website that allows users to browse and order food from restaurants.

- Developed the front-end of the web application using HTML and CSS.
- Designed and implemented a responsive user interface for desktop and mobile devices.

→Portfolio Website — May 2023

The aim of the project is to design and develop a personal portfolio that showcases the skills, about, project, education. The website will be serve as a virtual resume and a platform To showcase the individual's talents to potential clients or employers.

- The website will be designed using HTML, CSS, Javascript, and will be fully responsive.
- Home Page: This page will be the landing page of the website and will contain a brief introduction about the individual, their picture, and a call-to-action button to view their portfolio.

LANGUAGE

English — Fluent , **Bengali** — Native, **Hindi** — Intermediate.
